

Thermojet Morfologic Pro

THE MOST EFFECTIVE AND FAST WAY TO LOSE WEIGHT

Thermojet Morfologic® Pro is an aesthetic thermolipolysis equipment. Its technique is based on the skin's absorptive quality for infrared radiation that allows the increase of temperature to be internal and on a generalised level to obtain the lipolysis that takes place.

Unlike other thermal techniques, its goal is not to achieve sweating in a higher or lesser degree, but to accelerate the metabolism through thermoregulatory thermogenesis of the organism.

Thermojet Morfologic® Pro is the ideal equipment for overweight and obesity, cellulite and SPA treatments, as well as pains, both muscular and articular.

The equipment has 10 specific programs for each treatment, with exclusive and patented software that takes into account the morphology of each client and sets the parameters of the equipment to perform the treatment in a completely tailored way for each morphology type.

Thermojet Morfologic® Pro uses infrared radiation emitted at a frequency of 8,000 Angstroms, capable of penetrating between 4 and 6 centimetres in the tissue. The radiation is transmitted through anti-allergic and sterilisable silicone bands of 3mm thickness, and are flexible and have great anatomical coverage. The intermittent LEDs indicate the emitted energy that can be regulated by zones.

TREATMENT

- ✓ Obesity I & II
- ✓ Men
- ✓ Muscle Pain
- ✓ Menopause
- ✓ Cellulite I, II & III
- ✓ Spa
- ✓ Joint Pain

Technical Characteristics

50 Treatments: 10 programs & 4 morphologies
 Power Input: 110-230 V / 50-60 Hz
 Consumption: 380 W
 Weight: 6'6 Kg
 Dimensions: 14 x 48 x 35 cm
 10" Colour Touch Screen
 Intuitive Software

Optional Characteristics

Custom RFID Cards 
 Internet, Technical Service, Statistics, etc.
 Remote Control
 Bluetooth (smart-watch) 

Themojet PRO

Thermojet
Morphologic Pro Bands

COSMETICS

CELUGEL 500ML

Anti-cellulite thermoconductive active gel formulated with biorrubin liposome in high concentration.
Cod. A9053

REDUGEL 500ML

Reducing and anti-obesity active gel. Formulated with caffeine and ivy extracts.
Cod. A9058R

FIRMGEL 500ML

Product for flaccidity treatments. Formulated with horsetail and ginkgo biloba.
Cod. A9058F

LINFOGEL 500ML

Special thermo-reductor gel for circulatory and drainage treatments. Formulated with theophylline.
Cod. A9058L

DRENAJET 500ML

Refreshing drainage cream, formulated with concentrate of fucus algae (10% concentration).
Cod. A9059

THERMOFIL 500ML

14 micron osmotic PVC film for body treatments. 150 m
Cod. A9056
