

# Presojet Morfologic Pro

## NEW GENERATION OF PRESSURE THERAPY

**Presojet Morfologic® Pro** is our new pressotherapy aesthetic equipment with Morphologic technology. It treats the customer based on all determining body parameters for a treatment that is customised to the unique characteristics of the individual.

**Presojet Morfologic® Pro** uses inflatable boots and arms accessories that perform rhythmic pumping, compression and decompression with effects very similar to a manual lymph-draining massage. It also has nine other programs, created step by step, to offer a tailored and effective treatment for every client.

We can treat different circulatory problems at the lymphatic and blood level. We can also choose **specific programs for muscle massage, cellulite and pregnancy.**

## TECHNOLOGY

The inflatable boots accessory sectors of **Presojet Morfologic® Pro** are equipped with **FSS® (Floating Scale System)** completely exclusive to ENCO. This system generates uniformity in the treatment and avoids areas of reflux or lymphatic lumps.

As the sectors inflate, a micro-vibration is transmitted. This contributes to a greater stimulation for the blood capillaries, a better lymphatic drainage and a pleasant relaxing massage. Unlike other devices **Presojet Morfologic® Pro** is designed with special sectors for lymph node areas, such as:

- ✓ **In legs and abdomen: Popliteal Hollow, Inguinal, and External Lateral Iliac Ganglia and Solar Plexus.**
- ✓ **In arms and shoulder: Cubital and axillary ganglia.**

The opening of lymph nodes is performed repetitively by stimulation throughout the treatment.

**Presojet Morfologic® Pro** contains 10 different treatments for each type of morphology and each of them has a specific order and pressure, offering a total of 50 treatment options. Our equipment is adapted to tailor the treatment to the client. It allows you to link up to 3 different programs in one session, to design your own treatments and to perform more complex work.

## 2 VERSIONS

### PRESOJET 20 MORFOLOGIC

20 Sectors  
Includes inguinal sector  
Cod. A9098M

### PRESOJET 14

14 Sectors, Without Morphologies  
Cod. A-90981

**OPTIONAL** Arms and shoulders accessories that work from the palm of the hand to the shoulder. With 10 sectors in **FSS®**.

### Technical Characteristics

Power Input: 110-230 V / 50-60 Hz  
 Consumption: 50 W  
 Weight: 8.5 Kg  
 Dimensions: 14 x 48 x 35cm  
 7" Colour Touch Screen  
 Intuitive Software

### Optional Characteristics

Custom RFID Cards  
 Internet  
 Remote control  
 Bluetooth (smart-watch)

XXL Size Extension

3 Zippers

Inguinal Sector

## FLOATING SCALE SYSTEM BOOTS

- ✓ 20 Sectors
- ✓ No seams or backflow zones
- ✓ More flexible
- ✓ Covered inner scales
- ✓ Feet with rigid soles and special inguinal sectors
- ✓ Size extensions designed for customers with larger sizes.

## TREATMENTS

50 Programs: 10 Universal + 40 Morphologic

- ✓ Lymphatic Drainage
- ✓ Obesity
- ✓ Cellulite II & III
- ✓ Arms
- ✓ Menopause
- ✓ Sports
- ✓ Pregnancy
- ✓ Muscle toning
- ✓ Lymph-blood
